IV. Read the passag	e carefully, then	choose the correc	ct answer:

In an early survey conducted in 1888, a billion and a half people inhabited the earth. Now, the population is about six billion and is growing fast. Even though the rate of growth has begun to slow down, most people believe the population size may be eight billion during the next several years.

If we examine the amount of land available for this ever increasing population, we begin to see the problem. Not all land is useful to us because it cannot produce food. We can cut out about one fifth of it because it is covered by snow and ice. Then we can cut out another fifth

because it is desert. Another fifth is mountains. The other fifth does not have enough soil for crops to grow because it is bare rock. Obviously, with so little land to support us, we should take great care not to reduce it any more or with the rapidly growing population we may sooner or later lack food to eat and place to live in.

sooner or later lack food to eat and place to live in.

One afternoon I went upstairs to have a bath. As I was getting into the bath, the telephone rang in the hall. I was expecting an important call, so I ran downstairs. There was nobody else at home, so I didn't get dressed again. However, when I was standing in the hall with nothing on, I heard voices outside the front door. It was my teenage daughter and her friends, but I couldn't get back upstairs in time. I put down the phone, ran into the living room and hid behind the curtains. Unfortunately, the window cleaner was cleaning the living room windows. When I suddenly appeared, the poor man fell off his ladder. Fortunately, when my daughter and her friends heard the noise, they ran outside. When I looked out of the window, they were helping the window cleaner. So I went upstairs and put on the dressing gown. Luckily, the window cleaner wasn't hurt, but it was all very embarrassing.

### THE OLYMPIC GAMES

The ancient Greeks first had the idea of getting men together every four years to hold and witness sporting events (in those days women did not participate, though they had their

own, independent, events). The idea was to have the best athletes from all over Greece gather in one field and compete every four years. All wars and fighting had to stop while the athletes and their supporters came together in the town of Olympia for a few days to compete in a few events, mostly related to warfare (throwing the javelin, running, wrestling, boxing and chariot racing). The idea of having the modern Games was suggested in the mid 19th century but they weren't a world event until 1896. Besides being postponed because of wars, they have been held since then every four years in different cities in the world.

#### **VOLUNTEERS ABROAD**

More and more young people are doing voluntary work abroad. The wild variety of jobs and destinations available is making it an increasingly attractive option for those who have just left school and have a year free before university. Many choose to spend these twelve months working in poor countries. There they will earn little or no money. But they will be doing something useful – and enjoying the experience. The work may consist of helping the local communities, for example by helping to build new road or provide water supplies to isolated rural villages. Other projects may concentrate more on conservation or environmental protection. Whatever kind of job it is, it is certain to be challenging and worthwhile, and an experience that will never be forgotten.

### Answer the questions below:

- 1. Who works as volunteer before university?
- 2. How much money will they get when doing volunteer work?
- 3. What do they think about the job that they do?

#### Key

I. Choose the word which has the underlined part pronounced differently from the rest.

Sally gave me some candy and we became friends immediately. We were together nearly everyday until we finished school twelve years later.									
Then I went to college, but Sally didn't. She got married when she was just eighteen and had three children. I studied for four years because I wanted to be an accountant. I had a lot of new friends, and I didn't see Sally very often. Sometimes we didn't see each other for months, but we often talk on the telephone.									
Now I'm married, too. I live near Sally and we meet every week. She's a student now, and I have a baby, so we can give each other a lot of advice.
